Midterm Instruction

The midterm examination will take place on **November 13, from 9:30 to 11:30 a.m.** It covers **all material taught before the midterm**, lasts **two hours**, and carries **100 points**. A **review session will be held on November 6**.

The examination consists of five sections:

1. **Single-choice questions:** 10 questions, each with 4 answer options — **20 points**.
2. **Short-answer questions:** 5 questions, each requiring brief explanations — **25 points**.
3. **Calculation - MDP:** 3 questions, each with 4–5 subquestions — **25 points**.
4. **Calculation - Learning algorithms:** 2 questions, each with 4–5 subquestions — **20 points**.
5. **Calculation - Optimal policy:** 1 question with 4 subquestions — **10 points**.

The examination is **closed-book**. You may bring **two double-sided sheets of notes** and an optional **standalone calculator with calculation functions only**. Computers, tablets, phones, and other electronic devices are not permitted.
